

# Hey, nice to meet you. I am Stefan Oury.

## Work

### **Intago** dec 2015 - current

As Art Director at intago i am responsible for creating most of our custom digital products. I identify the needs of the client/user on basis of workshops. This results in low-fidelity prototypes (sitemap/wireframes) that have been created in collaboration with our cx-experts. After this I create high-fidelity designs which I will translate into HTML/CSS so our development team can implement these into our CMS.

### **Pure Communication** jan 2013 - dec 2015

As Graphic Designer at Pure Communication, I helped businesses to tell their stories with online and offline solutions. Here I found my passion for interactive projects. From applications for children or interactive videos to fully customised websites.

### **Ten Advertising** aug 2012 - jan 2013

I worked together with a copywriter as Junior ArtDirector to create advertisements, brand-concepts, video productions, offline communication and digital solutions.

### **Freelance Designer** jan 2009 - aug 2012

As Freelance designer I worked for a variety of clients. I loved solving problems while being challenged developing my soft and hard skills.

## Education

### **Provinciale Hogeschool Limburg** 2008 - 2012

I received my Bachelor Fine arts in 2012. I specialized in Interactive design
